DZB-300C Flow Wrap Machine

It is applied to feed automatically for cards, mote and patches, which can be customized long card suckers, suitable for packaging multiple cards

Features:

- Compact structure, stable function and simple operation.
- Double frequency converter controller, length of package will cut immediately once setting, adjustment needless, saving time and film.
- It adopts imported electric appliance, touch man machine interface, convenient parameter setting.
- Self-checking function, trouble can be read easily. High sensor photoelectric color chart tracking, make the cutting position more correctly.
- High sensor photoelectric color chart tracking, make the cutting position more correctly
- Dependent temperature PID controlling suitable for various materials of packaging membrane. Position stop function, no adhesive and no waste of membrane.
- Clean rotation system, more reliable operation and more convenient maintenance.
- All the controlling operates by the software, convenience for function adjustment and technical up grading.

Main Technical Data

Model	DZB-300C
Max packaging capacity(according to its material to fix)	120-300 bags/min
Suitable film thickness	0.03-0.06mm
Length of bags	65-330mm
Packaging with	30-110mm
Packaging height	5-40mm
Intensity of Sealing	≥15N mm2
Total power	2.9Kw 220V 50hz
Overall dimensions(L x W x H)	3500x900x1500mm
Weight	800kg
