

KENO-P250 Automatic Pillow Packing Machine

Main characteristic:

1. Be controlled by double transducer, flexible cutting and setting of bag length, time and film savable.
2. Human-machine operation, convenient and quick parameter setting.
3. Self diagnosis of failure function, clear failure display.
4. High sensitivity photoelectric eye tracking color mark and digital input of cut position make the sealing and cutting more accurate.
5. Separate PID control temperature, suitable for various packing materials.
6. Stopping the machine in the selected position, no sticking to the knife and no waste packing film.
7. Simple driving system, reliable working and convenient maintenance.
8. All the controls are achieved by software, convenient for function adjusting and upgrading.

Application:

Suitable for packaging soft, strip and unorganized objects like towels, tissues, noodles, egg rolls, sausages, sleeve-fish, popsicle, soft candies, biscuits, fresh fruits etc.

Performance parameter

Film width	Max.250mm
Bag length	65~190mm or 120~280mm
Bag width	30~110mm
Product heigh	Max. 40mm
Film roll diameter	Max.320mm
Packing speed	40~230 bag/min
Power supply	220V,50/60HZ,2.4KVA
Machine size	(L)3770x(W)670x(H)1450
Machine weigh	800Kg
