

## *Filling and rolling machine HHG-IS*

Based on the original HHG-I filling capping machine, widely used for pharmaceutical, chemical, food and other industries, it sets the filling, capping, capping integration, compact structure, small occupied area, can be suitable for round bottle for bottle.

### **Features:**

- Filling, capping, capping a machine.
- Pneumatic stoppering.
- Low consumption, no pollution, no noise.

### **Technical Parameters:**

Bottles applicability	50-500ml
Outout	40-60 bottles/min
Power source	220V 50Hz
Power	1.5kw
Weight	750kg
Overall size	2400 x 900 x 1700mm
