

## *TF-120 Automatic Effervescent Tablet Tube Filling Machine*

Automatic tube tablet bottling machine is controlled by touch screen, easy to adjust all data parameters, simple operation and easy maintenance.

It can realize automatic sorting, automatic cap feeding, automatic counting, automatic capping and automatic bottle output, etc., and adopts intelligent control of counting and filling system, pressing caps at a speed of up to 120 bottles per minute, and completing the effervescent tablets tube loading quickly and efficiently.

### **Technical parameters**

Max. Output	120 tube/min
Max. Tablet Feeding Speed	98000 pcs/h
Tablet Diameter	16-33mm
Tablet Thickness	3-12mm
Tablet Hardness	≥40N
Bottling Quantity	5-20pc
Tube Length	60-200mm
Tube Diameter	18-35mm
Power Supply	380V 50HZ 3P
Power	4.5KW
Overall Size	2500mm*1600mm*1700mm
Weight	About 480KG
