

HW-820 Granule Automatic Packing Machine

1. Chinese (or English) screen display (the countries words can according to the requirements of the customers)
2. Siemens PLC clearly shows the working state, handle direction and so on, simple operation directly.
3. Siemens plc system provide a stable work procedures
4. It can stock ten dispose, fit to the change of the product packing fatly
5. Using intellect thermostat, can control the temperature within 2c
6. Adjust the seal position in the touch screen, do not need to stop the machine, deviation and so on
7. Cooperate with horizontal grain tooth type sealing, packing more film, also can choose straight grain, twill cobwebbing, etc
8. Use the CE installation standard, the protect standard can be IP65
9. The packing

Technical parameters

Type	HW-820
Packing material	15L
Bag length (max)	240 mm
Bag width	40-128(mm)
Max width of roll film	5-10(mm)
Packing speed	500(mm)
Measuring ragne	10-60 bag/min
Air consumption	opp/cpp opp/ce pet/pe
Gas consumption	620 mm
Power voltage	220VAC/50HZ
Machine power	6.5 kw
Dimension	1815L x 1520W x 2005H(mm)
Net weight	850 kg
