

## ***DXD Automatic Pouch Packing Machine***

It is used for packing loose, non-sticky, granular, powder, tablet and liquid material such as instant drink, pellet, monosodium glutamate, sugar, dried soup stuff and oatmeal and like in pharmacy, food and chemical industry.

### **Characteristics**

This highly automatic packing machine has adopted a PLC programmable controller as well as an English and Chinese display screen that makes it easy to operate and convenient to be adjusted. The use of advanced photoelectric digital tracking system makes it possible to set the length of package is able to seize the cursor mark and get correct designed patterns. Synchronous package pulling system makes the movement of the packages smooth and accurate. Sealed, insulated and corrosion-proof soft touching display screen is provided.

### **Technical Parameter**

Model	80	140
Packing speed(pouches/min)	30-60	28-50
Range of measuring	1-50g	40-400ml
Package length(mm)	50-120	50-205
Package width(mm)	40-80	40-140
Type of bag-making	Three-side sealing, four-side sealing, or back sealing	Three-side sealing, four-side sealing, or back sealing
Power supply	380V,50Hz 3 Phased 4 Lines system	380V,50Hz 3 Phased 4 Lines system
Total power(Kw)	0.9	1.65
Gross weight(Kg)	185	270
Dimension(L*W*H)(mm)	800*700*1550	995*800*1975
