

Automatic Single-Row Liquid Packaging Machine CBZ-50YS

CBZ-50YS fully automatic single-channel liquid packaging machine is specially designed for the automatic packaging of various liquid or semi-liquid materials (such as shampoo, lotion, ketchup, soy sauce, etc.). The machine adopts advanced PLC control system and electronic induction detection system, which can realize one-stop automatic operation from bag making, filling, sealing, cutting to date printing, and has fault detection and alarm functions to ensure efficient and stable production process.

Feature

- Fully automated: no human intervention is required for the entire process from bag making to finished product output.
- High precision: the photoelectric eye accurately identifies the color mark on the packaging film to ensure the accurate position of each bag.
- Versatility: suitable for a variety of packaging materials, such as paper/PE, PET/AL foil/PE, PET/PE, NYLON/PE, etc.
- Safe and reliable: built-in multiple safety measures, such as emergency stop button, grounding protection wire and design to avoid contact with high-temperature components.
- Easy to use: intuitive operation panel and HMI human-machine interface, easy for users to get started quickly.
- Regular maintenance reminder: remind users to add lubricating oil regularly and check fasteners to ensure that the machine is in the best working condition.
- Perfect after-sales service: provide a one-year warranty and lifetime technical service support, and respond to customer feedback in a timely manner.

Specifications

Model	CBZ-50YS
Capacity(bag/min)	35-50
Range of measurement(ml)	1-12
Bag size(mm)	(L)30-150, (W)40-100
Power(W)	800
Source voltage	220V/50-60HZ
Packing material	Paper /PE, PET/AL foil/PE, PET/PE, NYLON/PE, paper /PE etc.
Net weight(kg)	260kg
Overall dimensions	850X1250X1650mm(L*W*H)
