

## *CMTBJ Sticker Paper Labeling Machine*

This 2 side sticker paper labeling machine designed for high-precision labeling for single-side and double-side of flat bottle, it can increase the labeling round bottle labeling mechanism. In addition, it is suitable for position labeling for round bottle. It can change mechanism in order to suit three sides or four sides of irregular-shaped or square bottle, greatly enhancing the usage range of equipment.

### **Product Introduction**

- 1). The plastic belt can be tilted, header of eight-dimensional can be adjusted the space.
- 2). The pressure between the driving shaft and the roller can be adjusted that direction of labels can be adjusted, instead of ordinary elastic compression.
- 3). Output label header adopt for double-roller structure to ensure the labeling paper is taut. Avoid damage by the end of paper cutting off scale phenomenon arising. Segmented clutch to a more balanced tension.
- 4). Chinese and English interface, Pressure with a gear connected with the host, ensuring the absolute synchronization of two conveyor belts, without any adjustment.
- 5). Closed-loop controlled by host use servo motor, built-in absolute encoder.

## Product Specification

Model	CMTBJ
Suitable bottle size	Length: 20-250mm
	Width: 30-90mm
	Height: 60-280mm
Labeling error	±1.0mm
Speed	50~200 pcs/min
Power	220V/50Hz 1600W
Machine size	3000*1450*1600mm
Machine weight	330kg
