

Small Rotary Unscrambler For Plastic Bottles Feeding Turntable Machine For Filling Production Line

This unscrambler machine is suitable for making small bottles be in order before packaging work, it can ensure the bottle will not fall down, the rotary plate size can be customized according to bottle diameter size. It works well with filling system, widely used in food, cosmetics, daily chemical industries.

Main Feature

- ▶ The rotary plate size can be customized according to bottle size.
- ▶ High working speed, it can unscramble 20-80 bottles/min.

Parameter

- Machine voltage: 110/220V 50-60HZ
- Machine power: < 500W
- Rotary plate diameter: 755mm
- Suitable bottle diameter: Customized according to your bottles
- Working speed: 20-80 bottles/min
- Machine size: About 570*685*1325mm
- Machine weight: About 177kg
- Package size: About 1110*1080*1490mm
- Package weight: About 208kg
