

CM-P1 Carton sealer

Carton sealers are case equipment that seals the top or bottom of a case with tape or glue. Typically, the minor corrugated flaps are kicked and plowed closed as the cases are transferred. As the cases enter the compression section, the major flaps of the carton are closed and a hot-melt adhesive is applied.

- Corner-type Full Automatic Carton Sealer
- Auto sealing top & bottom edges
- Manually adjust carton sizes

Technical Parameters:

| Model | CM-P1 |
|---------------|--|
| Power supply | 1p 110V/220V 50Hz/60Hz 1000W |
| Sealing speed | 20 meters/min |
| Carton size | L(340-670)×W(200-500)×H(200-500)mm |
| Tape size | 48-72mm(Kraft or BOPP tape) |
| Machine size | L(2200)×W(1280)×H(1400)mm |
| Shipping size | L(2250)×W(1330)×H(1600)mm |
| G.W/N.W | 550kg/480kg |
| Optional | ①Extension roller table ②Feet wheel ③Stainless steel |
