

ZSDPB-250E-I Model Flat Plate Auto Blister Packaging Machine

This product is a newly packaging machine designed for me divine in our company, its function has reached domestic leading level, it is suitable for capsule, tablet, honey pill, candy, one injector as well as irregular shape Al-plastic, paper-plastic composite and Al-Al sealing packaging in pharmacy, food, electronics, medical equipment industry etc. This machine is adopted with micro-computer PLC, touch panel operation, frequency convertor, easy operating; it is ideal packaging equipment at present.

FEATURES:

The distance can be adjusted freely in the same flat surface for forming, hot sealing, indenting, punching parts etc. It is suitable for various sizes of medicine packaging, and it has high precision and good Suitability.

Adjustable stroke, automatic feeding, opposite edition heating, positive pressure to form, up and down moiré, hot sealing of cylinder, dot number with automatic indentation, draw of mechanism, easy operating, stability of working it is adopted with imported gear reducer with lower noise and long life.

Correct location of die pressure plate, convenient to assemble and disassemble easy maintenance. (The body can be manufactured separately in order to easily transport the machine into workshop)

- Notes:
1. It can be added opposite sealing device with cursor trace.
 2. It can be added ink-jet printer according to the requirement of user.

Main Technical Parameters:

Cutting Frequeacy	Time/min	6-50
Capacity	10thous pics/h	3,5-23
Maxshapingareas and depth	mm	240*150*26
Stroke	mm	40-160
StandardPlate	mm	80*57
Air Pressure	Mpa	0.4-0.6
Total power	kw	380V/220V 50Hz 6.2kw
Pressure	kW	1.5
PVC hard pieces	mm	0.15-0.5*250
PTP Alu minum Foil	mm	0.02-0.035*250
Dialysis Paper	mm	50-100g*250
Mould Cooling	mm	tap water or back water
Overall Dimensions	mm	2900*720*1550(L*W*H)
Weight	kg	1600
