

VM-300 High-speed Servo Vertical Labeling Machine

High-speed Servo Vertical Labeling Machine is widely used for the labeling of round containers for food, medicine, fine chemical and etc, such as vial bottles, oral liquid bottles, and plastic bottles and so on. This machine adopts servo motor for control. The human-machine touch screen is convenient and easy to operate; the rich failure display function can realize high-speed labeling.

Technical Parameters:

MODEL	VM-300
DRIVE	Servo motor driven
DIRECTION	Right/left
LABELING	200-300pcs/minute
LABEL SIZE	W:12-90mm L:15-100mm
PRECISION	1mm (Subject to roundness and verticality of the bottle)
LABEL ROLL	Max:300mm
LABEL CORE	Stander:75mm
MACHING SIZE	2500x1300x1500mm
WEIGHT	220kg
POWER	AC110V/220V 50/60HZ 1200W
