

HG Economical Shrink Sleeve Applicator (HLM Series)

INFORMATION

1. Stainless steel head cover&machine body ensures superior economy, rigidity and stability.
2. Unique designed rotating blade features optimal rigidity and smooth motion. With internal sensor, origining system is totally automatic.
3. Mandrel easily positioned, providing efficient changeover.
4. Equipped with HMI, providing easy operation.
5. Succinct machine structure minimizes the possibility of trouble and optimizes the maintenance.
6. Light weight design for great mobility, cantilever type sleeve holder attached with machine body.
7. Work with all other auxiliary devices and shrink tunnel, the real machine for your choice.
8. Equipped with intelligent memory settlement when sleeving multiple bottle types at different speed, providing user-friendly and convenient changeover.

SPECIFICATION

機 型 Model		HLM-1100	HLM-1150	HLM-1200
MACHINE 主 機	長×寬×高(mm) Dimension(L x W x H)	980x670x2040		
	重 量 weight	450kg		
	電 源 Electric Power	AC-3 Phase 220V / 2.5KW		
	速 度 Speed	20~100 BPM	20~150 BPM	20~200 BPM
CONTAINER 容 器	直 徑 Diameter	φ15-125mm		
	高 度 Height	Max. 350mm		
	材 質 Material	玻璃、金屬、塑膠 Glass, Metal, Plastic		
	形 狀 Shape	圓、橢圓、方形、長方形 Round, Oval, Square, Rectangular		
SHRINK SLEEVE 收 縮 膜 材	材 質 Material	PVC, PET, OPS, PLA		
	厚 度 Thickness	0.035-0.08mm		
	膜料紙管內徑 Inner diameter of sleeve roll	5"~10"
