

Auto Capsule Filling Machine IPEC 70

The efficient way for Pharma Cartoning. IPEC 70 is a compact fully automatic capsule filling machine that can fill powder / pellets into hard gelatin capsules. The machine works on Tamping principal. The powder is formed into a slug and is delivered to the body of capsule. The auto capsule filling machine is designed to give output of 70,000 capsules per hour with high filling accuracy and can fill capsule sizes 00,0,1,2,3 & 4 The actual production depends on the quality of capsules, characteristics of the filling powder / pellets and humidity condition. The capsule filling machine is made as per GMP standards. Contact parts are Stainless Steel 316 & other parts are covered with Stainless Steel 304. We are leading manufacturer, supplier & exporter of capsule filling machine in Gujarat, India.

Features:

- Compact design, covered with Stainless steel 304, acrylic doors with micro switches
- Tamping system for Powder Filling with accuracy of + 3%
- Speed & other setting can set on Touch screen HMI
- Gauges are provided for easy change over

Technical Specification:

- Output 70,000 capsules / hour
- Main Drive 3 Phase, 1.5 HP, 380/440V, 50 Hz
- Powder Feeder 3 Phase, 0.25 HP, 380/440V, 50 Hz
- Dust Extractor 3 Phase, 2 HP, 380/440V, 50 Hz, 125 CFM
- Vacuum 3 Phase, 3.00 HP, 380/440V, 50 Hz
- 1000 Ltrs/min, 30CFM, 500mm – 20” of Hg.
