

Horizontal Sealing Machine CBS-900LW

The machine adopts electronic constant temperature mechanism and stepless speed adjusting transmission mechanism. It can seal plastic films with various of materials. such as PP, PE, Aluminum foil, laminated material. And can fixed date embossing system, If necessary, counting device can be fixed to the machine.

Technical Parameters:

Model	CBS-900LW
Voltage	220V/50Hz
Power	500W
Sealing speed	0-12M/min
Sealing width	5-13mm
Temp range	0-300°C
Sealing thickness	0.02-0.80mm
Printing number	≤39
Max conveyor loading	≤10kg
Size	900×450×500mm
Weight	40kg
Printing type	steel letter
