

Automatic Round Bottle Labeling Machine TPLM-R1

Automatic sticker machine, vial labeling machine, bottle labeling machine widely used for different sizes of round products such as round bottles, cans, jars, cylinder in daily chemicals, food, beverages, medicine and other industries.

Description

1. Adopt mature PLC control system technology; make the whole machine stable and high-speed
2. Adopt touch screen control system, make operation simple, practical and efficient
3. Advanced pneumatic code system technology, make the printed letter clear, fast and stable
4. Wide application, adapted to various sizes of round bottles
5. Roll extrusion bottle, so the labels attached more solid
6. Production line is for optional, also turntable is optional for collecting, sorting and packaging

Products Parameters

Model	TPLM-R1
Labeling accuracy	±1mm (not including the label error)
Labeling speed	30~2000bpm
Diameter&height of bottles	Diameter:φ25mm~φ120mm height:15mm~300mm
Label size	Length:20mm~290mm Width:15mm~300mm
Overall size of machine	About 1800mm×800mm×1500mm(L×W×H)
Supply power	220V/50HZ 110V/60HZ
N.W	260Kg
