

DLTB-A Type Vertical Round Bottle Labeling Machine

DLTB-A type vertical round bottle labeling machine, using PLC control and touch screen man-machine interface, easy to operate. According to the specifications and characteristics of the bottle and the label, the production capacity can be adjusted continuously. The labeling machine for the bottle of strong adaptability, for food, medicine, cosmetics and other kinds of glass bottles and plastic bottles, can be the perfect realization of the bottle or container labeling. The stepless speed regulation of the synchronous sponge wheel can be arranged by the bottle separating mechanism, and the distance between the bottle and the bottle can be arbitrarily arranged. Equipment can be stored and called for more than 10 sets of parameters, to facilitate the operation of the user to replace the specification. Equipment can be used to select the ribbon marking machine, to print the label.

Features:

- Labeling speed up to 150 CPM
- Friendly HIM interface easy to operate
- Simple Straight Forward Operator Controls
- Full-set protecting device keep operation steady and reliable
- On-Screen trouble shooting & Help Menu
- Stainless steel Frame
- Open Frame design, easy to adjust and change the label
- Variable Speed Missing label & printing detection system (optional)
- Hot Stamping Code Device (optional)

Specifications:

Model	DLTB-A
Capacity(b/m)	50-150
Bottle diameter(mm)	Ø30-100
Label length(mm)	10-250
Label height(mm)	10-130
Power(kw)	1
