

F100 Automatic Three Edge Small Sachet Sealing Packing Machine

F100 Automatic Three Edge Small Sachet Sealing Packing Machine is specially designed for powder material auto-weighing filling and bag forming sealing. Widely applied in the market of chemical powder, food powder, additives, this machine unit has been accepted by customers for long time.

Features:

- The bag making series adopts stepper motor subdivision technology, the bag making accuracy is high, the error is less than 1 millimeters, the two way controlled thermal sealing mechanism, the temperature control is more precise, the sealing quality is higher, the packing material is wider.
- The microcomputer bag long controller can set the length of the bag at any time without changing the parts, and the prefabricated technical number can be prefabricated, and the packing speed and the length of the bag are displayed.
- When the door is opened, the light point is not correct, the packing material is exhausted and overloaded, in order to ensure the stable operation of the machine, the equipment has an automatic alarm function.

Specifications:

Model	F100
Packing Type:	Three Edge Seal
Packing Material:	Powder Material
Weighing Range:	1-50ml
Bag Size Range:	30-40mm (W) x 85-120mm (L)
Packing Speed:	40-60bpm
Power Supply:	AC220V 50/60Hz 1.8KW
Machine Size:	1100 x 900 x 1900 mm
Machine Weight:	300KG

Options:

- Infeed & outfeed rotary tables
- Coding machine for data/batch printing
- Infeed conveyor
