

New Automatic Dhana Dal Packing Machine CK-ZC420BZ

As a packing machine manufacturer, we produce different types of packing machines, the dhana dal packing machine is a new type which is suitable for all kinds of pulses, it is very suitable for dal packing business.

Dal Packing Machine Features:

- The machine supported by a variety of advanced systems, can automatically complete all the packaging processes such as measurement, feeding, filling, bagging and sealing.
- The dhana dal packing machine adopts PLC computer control system with man-machine interface. The use of touch screen makes the operation of the machine simple and intuitive.
- Servo film conveying system can ensure accurate positioning of products, help to improve the performance of the whole machine, packaging more beautiful.
- The dal packing machine is equipped with automatic alarm protection function, which can detect faults in time and minimize losses.
- Control System: Controlled by Omron PLC LCD touch screen; English interface, better system stability and corrosion resistance, programmable controller for process time control; automatic drop correction function; automatic zero tracking function.

Our dhana dal packing machine can achieve multi-functional packaging specifications under the condition of guaranteeing production, which makes the use of the machine more extensive, is conducive to improving the utilization of the machine. About the dal packing machine price, we will send to your email after know your demand.

Model	CK-ZC420BZ
Air Consumption	0.65Mpa,3M3/min,6kg/cm2
Metering Device	Volumetric Cup Device
Metering Accuracy	±3%-5% (depend on products)
Take Away Speed	Max 60bags/min
Packing Film Width	180-420mm
Bag Length	80-300mm
Bag Width	80-200mm
Packing Film Roll Diameter	Max.360mm
Packing Speed	5-70bags/min
Packing Film Thickness	0.04-0.08mm
Packing Film Material	OPP/ CPP,OPP/PE,BOPP/VMPET/PE etc.
