

## *SJII-LB150 Automatic Triangle Packaging Machine*

### **Performance characteristics:**

1. The machine adopts advanced full computer touch screen operation, man-machine interface, and the operation is simple and convenient. The internationally renowned brand PLC control system can automatically complete the processes of bag making, metering, filling, filling, sealing, slitting, counting, coding, etc., and can be customized according to customer requirements.
2. Intelligent photoelectric control device ensures the integrity of the packaging bag making pattern. The pull bag adopts driving stepper motor control and color mark positioning, and has stable performance, convenient adjustment and accurate detection.
3. The overall contact material parts and casing are made of 304 stainless steel, which meets the food and drug hygiene permit standards.
4. This machine has one of the triangular bag packaging form, the cutter can be used with saw tooth and dotted line.
5. The machine has three models of particles, powder, and liquid.
6. Advanced design to ensure that the machine is suitable for different industries in the use of adjustment, operation, maintenance are very convenient. It can be used together with various automatic metering equipment at home and abroad.

### **Scope of application:**

Packaging materials: granules, powders, liquids.

Packaging materials: polyester/polyethylene, polyester aluminized polyethylene, polyester aluminum foil polyethylene, paper polyethylene, nylon and other heat sealable composite materials.

**Technical parameters:**

型号	SJIII-LB150
制成袋长mm	30-150
制成袋宽mm	40-100
包装薄膜宽度mm	100-220
包装容量ml	5-100
包装速度bags/min	30-60
功率Kw	1.6
电压V	220
气压	0.4-0.6Mpa
外形尺寸mm	900x1100x1800
整机重量Kg	300
