

Lab Series V Type Mixer VH-6/10/14

Lab Series V Type Mixer is primarily used in Laboratory for mixing dry powder, granulate or crystal products in Chemical, Food, Pharmaceutical and other industries. By rotating the V shaped vessel, the materials move in convective motion to get a quick and homogenous blending.

Features:

- ◇ Available in SS304, SS316, as per customer requirement
- ◇ Easy for loading and unloading
- ◇ Easy to operate, clean and maintain
- ◇ No dead corner
- ◇ Comply with GMP Standard.

Technical Parameters:

Model	Volume(L)	Working Capacity(L)	Vessel Speed (r/min)	Motor Power (KW)	Machine Dimensions(mm)
VH-6	6	2.4	20	0.55	650×300×700
VH-10	10	4	20	0.75	660×320×750
VH-14	14	5.6	20	0.75	900×360×900
