

PM610 Top Flat Adhesive Labeling Machine

1. The machine adopt the touching display operation, easy and intuitive, fully function.
2. Adopted Siemens control system, make machine more stable reliable in operation and long working time.
3. Adopt flat-belt convey, stable, reliable, labeling precision is more exactly.
4. Whole machine all compose by stainless steel and aluminium profile, well-formed.

Parameter:

Main Material	Stainless Steel 304, Aluminum Alloy 6061
Dimension	L 1410mm * W 700mm * H 1400mm
Voltage	220V/50Hz
Power	1200 W
Production Capacity	0-30m/min
Labeling Accuracy	+/- 1mm beak edge
Label Roll Core	76 mm
Label Roll Diameter	350 mm
Label Width	10~110 mm (special size can be customized)
Label Length	20~360 mm (special size can be customized)
Bottle Diameter	30~90 mm (special size can be customized)
Bottle Height	30~200 mm (special size can be customized)
