

APC-S120 Automatic Cotton Inserting Machine

Wide applicability, used for round, square flat and special shape bottle made of plastic. Self-diagnose and stop working to make alarm at errors and missing bottles as well as change cotton sliver. Patented cotton-insert technology, using pneumatic cotton-insert technology to avoid pollution of materials.

Feature:

- Strong compatibility Automatic cotton inserting machine's height adjustable, suitable for all kinds of specifications, all kinds of round, flat, square, flat square bottles;
- Detection Don't work with no bottle, breakdown self-check, fitted cotton in early and some other warning detection alarm control function.
- Special Stuffing cotton technology adopts pneumatic plug cotton, to avoid contamination of the automatic cotton inserting machine for material.
- Clean the suction aspiration, ensure the working environment clean. specifications, all kinds of round, flat, square, flat square bottles;
- Adopts programmable controller PLC control, Chinese interface, touch screen, easy to learn, easy to operate, square, flat square bottles;
- The automatic cotton inserting machine adopts conform to GMP requirements of stainless steel and other materials, square, flat square bottles.

Data sheet:

Name	Manufacturer
Motor	TQG(Taiwan)
Stepper Motor	EVER ELETTRONICA (Italy)
Photoelectric sensor for Seeing bottle	ORMON
Switch button	Schneider
Main Control Board	PLC Adopt Delta/Siemens
Man-machine interface	Adopt Siemens/Siemens
