

## Round Bottle Labeling Machine

Fully automatic self-adhesive vertical round bottle labeling machine, widely used in various specifications of circumferential surface labeling, taper round bottle labeling, such as cosmetics, food, medicine, daily chemicals, toys, hardware, plastics and other industries. For example, beverage bottles, wine bottles, sauce bottles, oil bottles, can achieve full-circumference/half-week labeling, double-label labeling on the front and back of the circumference, and the spacing of the front labels can be adjusted freely.

### Parameters:

Item	Data
Operating direction	Left or Right
Labeling Accuracy	$\pm 1.0$ mm (subject to the roughness of the plane)
Capacity (bottle/min)	60-100
The application of bottle	Outer diameter 13-90mm
The application of label	Height 15-150mm Length 15-290mm
The inner diameter of label volume(mm)	76mm
The outer diameter of label volume(mm)	280mm (max)
The power of motor (w)	1100W
Voltage	AC220V 50/60HZ Single phase
Weight	330Kg
Bottle	plast bottle / PET bottle / glass bottle / can
