

JTJ-B Semi-Automatic Capsule Filling Machine

This machine is composed of delivery and dispensing mechanism, medicine filling mechanism, locking mechanism, frequency control mechanism, pneumatic control and electrical control system, protection device and other components as well as vacuum pump and air pump accessories. The machine adopts variable speed control, the operation is very easy and simple, and the powder material feed correctly. The machine body and working table adopt S.S. Material, meet the sanitary requirement of pharmacy. It is suitable for filling powder and granular material in pharmacy and health food industry.

Technical Parameters

Productivity	10000-25000 pcs/hour
Capsule type	000#, 00#~5#
Filling formulations	Non-stick wet powder, small granules
Total power	2.12kW
Air pressure	0.03m ³ /min 0.7MPa
Vacuum pump	Pumping rate 40m ³ /h
Overall dimensions (L*W*H)	1800x800x1750mm
Total Weight	330kg
