

Automatic Tube Filling Machine SVATFM

Automatic Tube Filling Machine - Automatic Single head tube filling & labeling machine is precision built on sturdy welded SS frame completely enclosed in stainless steel sheet and doors are providing to facilitate the servicing of machine.

Tubes are arranged in hopper, From hopper one by one tubes come in Autoloader by viper, Autoloader loads tubes one by one from hopper to cup holders, After pick up of tubes tube goes to Mark station in which tube positioning with the help of color marks sensor, After tube position tube comes to filling station in which tube filled desired quantity, After Filling tubes come on hot air section in which tube heat after heat tube moves in coding section in which tube coding done After coding tube moves in cutting device in which trimming process done after cutting tube moves in ejection section in which tube ejected in the conveyor or in box & You will get complete finishing tubes

Technical Specifications:

Model	SVATFM	
Output/minute	As per required	
Direction of Movement	Left to Right Rotary	
No. of Sealing Head	As per required	
Electrical Specification**	Main Motor	1 HP / 415 Volts / 50 Hz.
	Heater	Own
Height of Hopper**	Dia 400 & h 500 40kg	
Machine Dimensions**	900 mm (L) x 1200 mm (W) x 1850 (H)	
Case Dimensions	1000 mm (L) x 1300 mm (W) x 1850 (H)	
Net Weight	450 Kgs. approx	
Gross Weight	580 Kgs.	
Change parts required	(A) Tube holder	
	(B) Nozzel
