

Falling Type Case Packer STP-02

Product description

- >Machine can finish auto product grouping and falling.
- >PLC controlled, safety and stable. Servo dividing system, accurate and efficient.
- >HIMI panel, easy to learn and operate.
- >lack of product protection. Can avoid accident or product damage.
- >Open door stop function, high safety standard.
- >Easy adjustment for different product sizes.
- >Can adopt different grouping type to satisfy different requirement.
- >Can combine with carton erector and carton sealer.

Technical specification

MODEL:	STP-02
Packing speed:	8-10 ctns/min
Packing size(mm):	special design.depends on the requirement.
Power supply:	380V,220V 3 ϕ , 50 / 60Hz
Power:	1KW-1.5KW(special design)
Format type:	3x4;3x2;4x6 etc.(depends on customer).
Machine dimension:	L1500xW1500x1800mm(depends on design)
Machine weight :	500-800KG
