Automatic Double Side Labeling Machine

Application:

*For all kinds of double side labeling, such as flat bottle, cosmetics boxes, plastic cap labeling, etc.
*Widely used in food, cosmetic, chemical, pharmaceutical and other industries. It can work alone or connect to production line.
*Date printer can be added, which can print production date, batch lot and expiry date while labeling.
*Support customization.

Technical Parameters:

Labeling speed	120-250b/m
	(Adjustable speed, depending on bottle size and label length)
Labeling accuracy	+1mm(depends on products Characteristics, hardness and trueness of the circle)
Bottle diameter	25-120mm
Object range	Height: 20mm ~ ~ 300mm (Can be customized according to customer requirements)
Label specifications	Height:10mm~~150mm Length: 15~~300mm
	(Special specifications can be customized)
Roll diameter	Φ76mm Outer roll diameter: Φ300(max)
Power supply	AC220V 50/60HZ 980W
Weight	280KG
Package Size	2800*1400*1400mm
