

BS 560C Automatic Shrink Packaging Machine

The machine is used to shrink pack single or multiple medicine, food stuff, cosmetic, chemical, auto parts and so on. Its max speed is 30 packs / min. It can finish all actions automatically like covering with film, sealing, shrinking and so on. The bag length is controlled by photoelectric stepping motor; shrinking speed is controlled stepless; HMI and PLC control the whole machine. The malfunction can be shown automatically when the machine is running. It can be used separately or in line with automatic boxing machine.

Technical Parameters:

Item	BS-560C
Packing material	PO, POF three-layer co-extrusion environmental protection shrink film.
Packing material size	0.012-0.05×200-550 (thickness x width)mm
Packing material roller diameter	Max. 250mm
Electric power	380V/50HZ 220V/60HZ
Power	8.5kw
Air pressure	0.5mpa
Capacity	20-30 Packages/min
Max. packing size (L x W x H)	400x320x125mm, W+H<400mm
Shrinking speed	0-10m/min
Overall dimension (L x W x H)	3600 x 850 x 1600mm
Main material	304 stainless steel
Weight	550kgs
