

SSP-230 Spiral Deduster

SSP spiral multi-layer deduster was brought on the basis of international technology, it was double functions: tablet loading and tablet dedustering. Its advantage: long-road tablet dedustering, automatic tablet purling and polishing, effective deduster and do not damage the tablet. At the same time, it can serve as a transmit instrument. Totally meet with the standard of "GMP" requirement. This machine adopt new structure, and guarantee the safety and stability.

Main Technical Data:

Model	SSP-230
Output Efficiency(tablet/h)	0-1000000(φ8)
The Gumming Distance of Table(m)	6.2
Power	220V/50HZ 1.5A
Compressed Air(kg)	0.1m ² /min-0.1MPa
Vacuum Dust Collect	2.5m ² /min-0.1MPa
Idle load noise dB(A)	<60
Size L*X*W*X*H(mm)	360x450x1200
Weight (kg)	70
