

CapperPacks Automatic Bottle Labeling Machine

The CapperPacks Automatic Bottle Labeling Machine is dedicated to the circular side of the bottle labeling or positioning labeling. After being familiar with the equipment, it can be used for labeling round bottles in other industries, such as food cans, cosmetic round bottles, medicine bottles, etc.

We also offer optional automatic bottle processing machine, filling machine, lifting machine, capping machine, can sealing machine, rotating capping machine, aluminum foil sealing machine, labelling machine, Jet machine and other equipment.

Technical Parameter

- Machine material | The shape of the whole machine is mainly made of 304 stainless steel and high anodic aluminum
- Operation interface | touch screen
- Labeling accuracy | ± 1 mm (excluding product and label errors)
- Labeling speed | 30-60 pcs/min (related to product and label size)
- Applicable product | Round bottle(double label)
- Applicable label size | length of the label:20-400mmwidth(base paper width):20-120mm
- Dimension (L*W*H) | 2000×1150×1500mm
- Voltage | AC220/380V 50Hz~60Hz
- Machine weight | 200kg
