

ZHTB01 Round Bottle Labeling Machine

ZHTB01 automatic labeling machine is mainly used for automatic labeling of every kind of round small bottle or any other round small bottles in the industry of pharmaceutical, food stuff, cosmetics, etc.

Features

1. ZHTB01 automatic labeling machine adopts human-machine operation system which features visual display and easy operation.
2. Round bottle labeling machine is equipped with several memory devices thus there is no need to reset the changed products.
3. Automatic labeling machine has the functions of displaying fault, sending an alarm and shutting down when rebers are used up.
4. All the components of round bottle labeling machine are finely finished or specially treated. Therefore the machine has the advantages of high labeling precision, reliable performance and long service life.

Parameters of Automatic Labeling Machine

Speed of Labeling	80-200 bottles/min. (according to the bottle and the length of the label)
Bottle Outer Diameter	30-100 mm
Total Power	300V
Voltage	220V/50-60Hz
Dimension	1600×700×1400 mm
Weight	200 kg
Transportation Direction	left to right (or right to left)
Labeling Scope	Φ20mm - Φ100mm
Labeling Height	20-100 mm
Labeling Length	10-250 mm
Label Reel Specification	Φ76mm
Max Outside Diameter of Label Reel	Φ300mm
