

XT-FX6 Type rotary capping machine

XT-FX6 type rotary capping machine set into the bottle, settle cover, put on cover, screw cap, out of the bottle to the integration, using positioning catching cap, screw cap, the whole machine for rotary structure. In the process of screw cap, the bottle without injury, no injury cap, screw cap with high efficiency, high pass rate, smooth operation, wide range of use, can be comparable to similar foreign products.

This machine is suitable for all sorts of glass or plastic bottle cap automatic screw cap, using catching cap grip a variety of lid conveyed by scraping plate, completed the cap screwing in the process of bottle rotary. The machine adopts PLC control, touch human-computer interface, easy to operate.

Technical parameters

production speed	≤6000 BPH
bottle diameter	Φ40—90 (mm)
bottle height	80—250 (mm)
the cap diameter	Φ15—55 (mm)
the cap height	15—35 (mm)
percent of pass of screw cover	≥99.8%
power supply	380 (V) 50 (HZ)
air pressure	0.6~0.8 (Mpa)
power	4.5 (KW)
the machine size	3500×1380×2100 (mm)
weight	1700 (Kg)
