

## Square & Round Bottle Labeler machine UPLB-1120-03

The counter PLB-1120-3 is a reliable, high performance machine, designed in conformance with current and proposed cGMPs. Having a small footprint, they are effective in maintaining the integrity of a clean room environment. Up to 50 settings memory for various bottle-size labeling tasks; compact structure, reliable performance and easy adjustment.

The label strip from the label roll holder is spread around several guiding rollers, through the dispenser and fixed on the base paper recycle roller lastly. Bottles are fed via the spacing wheel. When the sensor detects the coming bottle, it will signal the label dispenser to stick out a piece of label, which is stripped off by the passing bottle. Then the label will be pressed closely against the bottle surface by the label wrapping device.

### Technical parameters

Item	Specification	Remark
Max. output	200 bpm	Dependant on bottle and label size
Bottle size	φ16~φ90mm	square/round bottle
Max. label width	110mm (180mm in option)	
Labeling accuracy	±0.5mm,	Dependant on label size and quality
Power supply	AC220V 50/60HZ	
Wattage	0.88KW	
Air pressure	0.5~0.7 Mpa	
Air consumption	30L/min, clean air	
Measurement (L×W ×H)	Approx. 3000mm×1050mm×1214mm	
Conveyor height	870±30mm	
Weight	Approx. 200kg
