

Ching Han Industrial Co., Ltd.

Since 1978

PD-SC2 / Powder Press Machine

- Designed specially for cosmetic powder. apply to powder cake and eye shadow etc.
- Convenience to fix molds and accuracy to fit molds raise fitting moulds efficiency.
- With automatic rolling cloth device which can save pressing mould time and increase production.
- To press powder downwards and upwards benefites air penetration and improvies cake's appearance.
- Pressing time and pressurizing time can be adjucted in accordance with operation requirement.
- It ensures operators safety that both left and right buttons are pressed at the same time to start machine
- Manual to automatic mode is selected according to operator's need.
- PLC and text display make operation easy.

Specification:

- Size: L1680*W760*H1500 mm
- Material : SUS304
- Desktop Height: 970mm
- Net Weight: 550 KGs
- Power: AC380V / 3 Phase / 60Hz
- Working Pressure: 0-140kg / cm²
- Max. Pressure: 200kg / cm²
- Hydraulic Cylinder: φ150*80
- Capacity: 3 Pressing / Min.
