

ZP-B12 Auto Continuous Filling and Sealing Machine

This series machine is suitable for filling and sealing PP and PE bottle. Characteristics: high productivity; good stability; good sealing; accurate filling. If different bottles' mouth and body size are same, but the volumes are different, you can adjust the support bracket to fill the different volume bottles.

Technical parameters:

参数 Model	包装速度(瓶/小时) Packing speed(bottle/h)	充填容量 (ml) Filling capacity	使用电源 Power using	主电机功率 (kw) Main motor power	制盖电机功率 (kw) Cover-making motor power	输送带电机功率 (kw) Conveyor belt motor power	加热装置 (kw) Heating equipment approx	使用气压 (Mpa) Air pressure	最大耗气量 (m ³ /min) Max air consumption
ZP-B12	3000-4000	1000	三相四线 3phase 4 lines (380V /50HZ)	1.1	0.75	0.18	2	0.5-0.7	0.2(外接气源 external air source)
ZP-B18	5000-6000	300					4
