

Band Sealer with Vacuum SY-M903V

WU-HSING's continuous band sealer with Vacuum is Air-sucking & Sealing. The machine comes with Air extracting device by stainless made of Nozzle. Its Sealing head can be tilted 0~15°degree forward. The bag is sealed with air extracted to reduce the volume of bag and easier to be stocked. To keep the food longer time or save the space of parts. Use Band Sealer can save the packing time & working member.

Specification:

Model	SY-M903V
Bag Thickness	0.06m/m-0.5m/m (Bilayer Thickness)
Sealing & Conveyor Speed	0~10 m/min. (Variable Speed)
Convenyor Width	200mm
Sealing Width	5mm (PE) 10mm (PP)
Conveyor Heighty Adjustable Range	130mm
Loading Weight	5KGS
Machine Size	156 x72 x 101 cm
Packing Size	166 x 82 x 111cm

Features:

- Can Vacuum & Gas Flushing
- Applicant: Food, Chemical, Hardware (exclude Liquid, Powder)
- ideal for any vacuumable & sealable materials.
- Can be tilted 0-20 degree
- Bag size: L300 mm x W300 mm
- Voltage: AC200V/220V/240V, 1200W, 50/60HZ
- Optional Device:
 1. Counter
 2. Date coding
