

NJP1500/2000A/B/C/D Fully Sealed And Auto Capsule Filling Machine

The machine is design for a batch production and retrenchment cost on the basis of NJP-1200A/B/C/D fully automatic hard capsule filling machine. In addition to the function of model NJP-1200A/B/C/D fully automatic hard capsule filling machine, the machine has the rising mechanism that is convenient to clean filling parts. It saves the investment and manpower for enterprise with a batch production.

Main Technical Specifications:

Mode of machine	NJP1500A/B/C/D	NJP2000A/B/C/D
Filling type	Powder, Pellets	Powder, Pellets
Size of capsule style	00# - 5# and safety capsule	
Output	capsules/h	capsules/h
Power requirement	380V 50Hz 2.5Kw	
Noise target	<75dBA	
Overall size	1100×1000×2000mm	1100×1000×2000mm
Net weight	1300kg	1300kg
