### Technical Parameters:

Measurement method	Volumetric method (measuring cup size: 1-3 g, volume about 4.2-17.2 ml, adjustable)
Measurement range	3-10ml tea power be 1-5g
Bag size	width : 45-80(Teabag Specifications: 60 mm wide, length: 55-65 mm, length adjustable)
Tag size	W (22-28) ×L (23-28) (mm)
Template width	120mm
Packing speed	50-60bag/min
Filter paper specification	18gsm heat seal tea bag filter paper
Dimension	900×950×1800(mm)
Weigth	350KG
Input power	220V、50HZ
Total power	1.6KW
Main motor	220V、370W、7134single phase、1400rpm
Control system	About 40W
