

## *Smart Weigh SW-PL7 Powder Premade Bag Packing System*

### **Features:**

- ◆ Fully-automatically procedures from material feeding, filling and bag-making, date-printing to finished products output;
- ◇ Because of the unique way of mechanical transmission, so it's simple structure, good stability and strong ability to over loading.;
- ◆ Multi-languages touch screen for various clients, English, French, Spanish, etc;
- ◇ Servo motor driving screw is characteristics of high-precision orientation, high-speed, great-torque, long-life, setup rotate speed, stable performance;
- ◆ Side-open of the hopper is made of stainless steel and is consist of glass, damp. material movement at a glance through the glass, air-sealed to avoid the leak, easy to blow the nitrogen, and the discharge material mouth with the dust collector to protect the workshop environment;
- ◇ Double film pulling belt with servo system;
- ◆ Only control touch screen to adjust bag deviation. Simple operation.

It is suitable for smaller granule and powder, like rice, sugar, flour, coffee powder etc.

**Parameters:**

<b>Model</b>	<b>SW-PL7</b>
Weighing Range	≤2000 g
Bag Size	W: 100-250mm L:160-400mm
Bag Style	Premade bag with/without zipper
Bag Material	Laminated film; Mono PE film
Film Thickness	0.04-0.09mm
Speed	5 - 35 times/min
Accuracy	+/- 0.1-2.0g
Weigh Hopper Volume	25L
Control Panel	7" Touch Screen
Air Consumption	0.8Mps 0.4m <sup>3</sup> /min
Power Supply	220V/50HZ or 60HZ; 15A; 4000W
Driving System	Servo Motor
