

Biscuit Pillow Horizontal Packaging Machine

Biscuit packaging machine is specially designed for single row biscuit PACKAGING without pallet, which realizing fast PACKAGING of several pieces of biscuits in single row. it can save millions of costs for manufacturers for one year, which will bring a lot of benefits to manufacturers.

Features:

1. Biscuit PACKAGING machine with higher control precision
2. Large colored touch screen store, pick up, automatically adjust, track, find cutting point, alarm, indicate barriers, accumulatively count packs, bag length and speed automatic display, which can realize precise cut and seal.
3. With photo-cell detecting the color mark and dual-tracing system, this machine can effectively eliminate any packaging error and avoid materials waste.
4. New type vertical sealing design makes the seal at low temperature, which effectively reduces the film burning and packaging wastes.
5. Bag length and speed automatic display can realize precise cut and seal.
6. Greatly save the cost without pallet
7. Biscuit packaging machine can design cross production line and save space.

Technical Parameters:

Speed (Bag/ min)		30-120
Packaging Range	Length (mm)	60-240
	Width (mm)	40-80
	Height (mm)	40-70
Electric Power Voltage (v)		220
Power consumption (kw)		5.2
Weight (kg)		1200
Feeding Section Size(L*W*H) (mm)		3100*580*1130
Dimensions (L*W*H) (mm)		4020*1150*1840
Packaging Material		Paper/PE, OPP/PE, OPP/AL/PE etc
