

Servo Driven Hard Candy Depositing Line - DRSF-H

The DRSF series microfilm cooker and servo driven hard candy depositing lines are the advanced equipment for producing hard candies, they are driven by servo motors and controlled by motion controller.

They can produce transparent candy, center-filled candy, two colors&two flavour candy, striped candy, etc.

Specification:

Production capacity	300-800kg/h	Drum running speed	0~20r/min
Steam consumption	450kg/h	Steam pressure	0.4~0.6Mpa
Electric power	22kW/380V	Humidity	55%
Length of the whole line	13m	Gross weight	Approx.6000Kgs
