

Tea Bag Packing Machine

The inner bag is tea filter paper, the bag with line and label, the inner bag packaging automatically into the out bag, the out bag is composite film packaging, with moisture-proof, anti-odor volatilization, preservation, and other functions.

Product Features

This machine is automatic multi-functional tea bag packaging equipment with a new heat sealing type. The inner and outer bag forming is finished at the same time, avoids direct contact with the packing material, and improves working efficiency. The inner bag is made of filter paper with thread and tag attached, and the outer bag is made of composite paper. The biggest advantage is tag attaching and outer bag making can adopt photoelectric positioning, Packing capacity, inner bag, and outer bag size can be easily adjusted according to different requirements to achieve the best packaging results, improve product appearance and enhance the value of the product.

Application:

It is suitable for double bag packing of small granular products, such as tea leaves, medicinal tea, and health care tea.
