

Nylon Tea Bag Filling And Sealing Machine BS-20D

The main application examples are: herbal tea, fruit tea, original tea, coffee, traditional Chinese medicine tea, granules and so on. It is very convenient to adjust, operate and maintain during use. It can be used in conjunction with a variety of different metering equipment.

Features:

1. The contact part of the body material is stainless steel. All stainless steel or part of stainless steel can be selected. All equipment has passed the CE standard.
2. High-sensitivity photoelectric color tracking, digital input of cutting position, higher accuracy.
3. Embedded sealing, enhanced heat-sealing intelligent thermostat structure and good heat balance make it possible for various packaging materials to have good performance, low noise, clear cutting patterns, and strong sealing.
4. The packaging speed and the length of the packaging bag can be set to a certain extent, without further adjustment and replacement of parts.

Technical Data:

Packed weight	1-20 g/bag
Bag paper requirements	Nylon, non - woven fabric, corn fiber and other ultrasonic sealing materials
Production speed	40 ~ 60 bags per minute
Outer diameter of coil	≤Φ350mm
Inner diameter of coil	Φ76mm
Air pressure	Not less than or more than 0.6Mpa (air supply is guaranteed by the buyer)
Power	1.4Kw(220V)
Equipment form	L850×W900×H1700(mm)
Weight	350kg
