

XLRCGS-6 6 Cavity Semi Automatic PET Plastic Bottle Blowing Machine

The 3500BPH 20L Blowing Machine is equipped with advanced process, which has longer service life four use and there is no special need of maintaining. Due to the proper size and compact design, it can be placed everywhere in order to help release space of limited places and there is no special need of maintaining. Due to the high degree of adjustability, the shape of the preheater can be preheated by adjusting the length of the lamp tube and the reflector in the automatic heating device in the preheating area and the eternal temperature in the preheater. Equipped with a safety automatic locking device in every mechanical action, it can ensure a certain safety, so that when some programs fail, the program will be changed to a safe state.

The safe, reliable and unique design of the valve position for 3500BPH 20L Blowing Machine makes the pneumatic diagram of the machine easier to understand. Compared with ordinary product on the market, it has the advantages of low cost, high efficiency, easy operation, convenient maintenance, etc. On the other hand, it realizes the function to ensure that the process is automated.

Technical Parameters:

Model	XLRCGS-6	
Theoretical output	3000-3500 pcs/h	
Finished bottle	Max. bottle volume	20L
	Max. neck diameter	38mm(Φ20 ~ Φ55)
	Max. bottle height	1000mm
Mold specifications	Cavity	6 cavity
Electrical system	Power voltage	380v/3Phase/50HZ
	Installation power	210kw
	Actual power consumption	200kw
Air source	Recommend air compressor	8m ³ /min 30Kg
Cooling water	Recommend water chiller	10HP
Blower size	Length*width*height/weight	3640mm×3080mm×3600mm/1500kg
		(2 sets)
