Labeling machine TBY series

Fully automatic induction sealing machine. 180 bottles/min

Applications:

Mainly for pharmaceutical, health care and food industries. Suitable for all kinds of bottles.

Features:

- fits for all kinds of bottles.
- PLC control system, touch screen control, easy to operate and adjust parameters, be able to store 50 different kinds of products.
- Well know components, very reliable.
- Synchronistic ally speed between labeling and conveyor speed to make sure the labeling quality.
- Adjustable sensitivity of the label photo cell is able to recognize different stickers.
- Failure diagnosis function. Easy to operate and maintenance.
- 3 lines for printing date, batch number and expiry date etc.

Main data:

Model Data		TBY-100A	TBY-100B
Shape of bottle		Round	Round or Square
Max speed		180	80
Hot printing , Linexletters		3x12	3x12
Label roll inner diameter		76mm	
Label roll outer diameter		<370mm	
Container spec	Diameter	Ø25mm~ Ø80mm	Ø28~80mm
	Height	30~150mm	30~150mm
Noise		<70dB	
Compressed air		0.5Mpa	
Total load		0.9KW	1.3KW
Power of supply		220V, 50Hz/60Hz	
Dimension		2370x940x1250mm	3000x1050x1100mm
Weight		100kg	200kg
