

HL-DXDK/HL-DXDK-350 Fully Automatic Granular Packing Machine

This machine is suitable for packing granular products with good fluidity. Such as: pharmaceutical granules, salt, monosodium glutamate, tea, desiccant, pesticide particles, solid drinks, seeds, etc.

Technical Features:

1. Computer control, liquid crystal display, easy to operate, stable and reliable operation.
2. Step motor control pull bag system, bag high precision.
3. Stop the bag, and after the shutdown, the heat sealing device is automatically in the open state.
4. Automatic tracking color code, automatic packaging bag positioning, fixed length.
5. Variable screw ring to adjust the measurement for the hand lever type, the door lever and the support of the integration, the state of the machine can adjust the measurement. Operation more convenient, more secure.

Sealing mode: three side sealing (flat knife), four side sealing (flat knife).

Technical Parameter:

Model	HL-DXDK	HL-DXDK-350
Packing Speed	50 Bags/Min	40 Bags/Min
Measuring Range	1-50g	100-500g
Filling way	Measuring cup	Measuring cup
Bag Length	40-160mm	80-250mm
Bag Width	40-120mm	60-150mm
Voltage	1.1KW/220V	2.3KW/220V
Packing type	3 edge-sealing/43 edge-sealing/back sealing	back sealing
Motor	Stepper motor	Stepper motor
Size	73*100*170cm	100*95*180cm
