

DC50 Automatic Bag Filling Packing Machine

The drip bag coffee packing machine DC50 is a new type of hanging ear coffee filter sachet filling and packing machine, it adopt ultrasonic sealing, this will greatly save filter material and guarantee beautiful sealing effect.

The drip coffee maker is multi-functional, it can automatically filling coffee powder into inner drip coffee bags and then add outer envelope, avoiding hands directly contacting with stuff materials, improving the efficiency.

The inner coffee bag is made of non woven roll material, which is pre tagged with paper hanger, after forming and sealing, the coffee bag can be placed on the cup for brewing, the outer bag is composite heat sealable material.

Packing Material:

Automatic Drip Coffee Bag Packing Sealing Machine use packing material as follow: Inner coffee bag with drip bag coffee material in roll;

Outer envelope material is composite material like plastic/plastic, plastic/aluminum/plastic and etc.

Technique Performance:

Model	DC50 haning ear filter drip coffee packaging machine
Sealing method	Ultrasound sealing for inner bag, heat sealing for outer bag
Outer bag seal type	Three side sealing
Filling range	5-12gram/bag (can be customized)
Inner bag	L: 50-80mm W: 50-80mm (made by requirement)
Outer bag	L: 75-95mm W: 80-120mm (made by requirement)
Capacity	30-50 bag/min
Total power	220V/50HZ/3.5kw
Dimension	1250(L)x850(W)x1900(H)mm
Weight	680kg
