

## Automatic Volumetric multi-row grain packing machine XS-K600B

DXDK600B four directions seals shape, top performance, high speed and flexibility sachet packaging machine.

Granulate products, powders and liquids can be packaged and is suitable for everywhere.

Multiple line, high speed and longtime production is best suitable for big and medium-sized enterprises. Meets the highest GMP standards; prevents hidden deposits of product. All corners are easily accessible for cleaning. Top automatic control; customized solutions to use, PLC or instrument. Hydraulic coupling system for sealing pressure ensures high quality sachet without noise and vibration.

### Technical Parameters:

Model	XS-K600B
Production capacity(bags/min)	Max 600
Volume margin (ml)	Max 250
Bag length (mm)	Max 250
Bag width (mm)	Max 250
Power Consumption (6KW)	380V 3-phase and 5 wire system
Dimension(mm) WxDxH	150×1860×1900
Net Weight (kg)	2300
