

## Automatic/Semi-Auto Bottle Filling Machine CM-PFM

Suitable for filling toilet water, perfume and other water-based materials.

### Features

- Negative pressure suction filling, filling volume is metering with the liquid level
- Suitable for glass bottle or plastic bottle which is not easy out of shape.
- Adjustment, operation and maintenance is convenient
- Equipped with casters, convenient to move.

### Technical Parameters:

Production Capacity	30-50 bottles/min
Filling Volume	5-1000ml
Suitable bottle height	≤250mm
Suitable bottle diameter	≤90mm
Application of Bottle Diameter	≥5mm
Supply Voltage	3/N AC 380V/220V
Power Consumption	0.55KW 0.75KW
	( explosion proof Noise 70dB(A)
